## ABOUT US

PMA group are a family owned and run business with over 50 years of experience and knowledge within the industry. We are a leading manufacturer, supplier and distributor of all types of heat transfer products.

We specialise in providing superior cooling solutions for both O.E.M and aftermarket customers. We are committed to delivering excellence in both products and service.

Within our 45000sqft manufacturing and distribution facility we have both Aluminium Nockolok brazing along side traditional copper / brass enabling us to successfully deliver all of your cooling requirements and needs guaranteeing the highest quality products.

## PRODUCTS & SERVICES

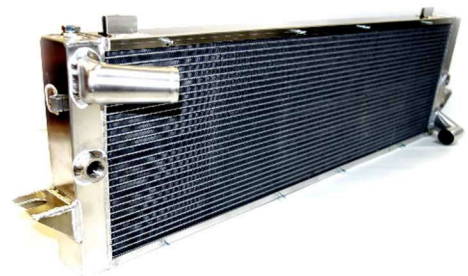

- Dedicated in house product design team using latest CAD technology.
- Testing and product validation
- Bespoke prototyping to suit customer requirements
- High volume production run capabilities
- Over 5000 product lines stocked
- Fast and efficient delivery service
- Tecdoc part identification
- Secure online stock check and ordering facility
- In house machine shop with CAD/CAM capabilities

## QUALITY & ACCREDITATION

PMA are committed to delivering consistently high quality services and products. We endeavour to ensure that all our employees work safely, efficiently and effectively. Policies and standards are in place for project management, environmental services, health and safety.

Our processes are reviewed and audited on a regular basis both internally and by independent external authorities.

As an ISO 9001:2008 certified company, we guarantee consistently high quality standards. PMA products are manufactured using modern production techniques and high quality materials.

## BRANCH NETWORK

In addition to our 45000sqft Manufacturing plant in the heart of the east midlands PMA have a branch network providing the customer with a wide range of off the shelf product and a variety of services, with dedicated local collection and deliveries. Each branch having an experienced and knowledgeable team to ensure customer demands are met.

Service features that our branches are able to offer include:-

- New quality replacement products available off the shelf
- Bespoke manufacturing to drawing or pattern
- Repair and Recoring of all types of heat exchange units ranging from vintage and classic to large generator and plant
- Fuel tank repair
- Aluminium welding
- Pressure testing and flushing facilities
- Local collection and delivery services
- DVLA registered Number plate supplier of built up plates & materials

## PARTS & CONSTRUCTIONS

### Aluminium

- Fins  
5, 7, 8 & 10mm corrugated fin in various widths in both plain and louvred designs providing for an extensive range of applications.

- Tubes  
Extruded & welded tube in varying sizes & designs to suit applications ranging from small water radiators through to large plant equipment.

- Plate & Bar  
Capability to supply made to measure cores both in volume and/or one off requirements.

### Copper & Brass

- Fins  
We have the capability to produce both flat fin and corrugated fin constructions in multiple widths, heights & designs.

- Tubes  
Solder coated lockseam tubes alongside welded tubes to suit flat & corrugated fins in 13mm & 18mm tube widths.

### Special Applications

- Finned Tube  
Various finned tubes constructions available using carbon steel, stainless steel, copper, copper alloys & titanium as base tube materials.

- Tinned Fin  
Heavy duty tinned fin in staggered & inline tube designs from 2 – 8 rows suitable for heavy duty & marine applications.
